Pardon Us, But Our Pride Is Showing!
Butler Farmsted® Buildings
FARMSTED I
FARMSTED II
In 1970, for the very first time, Butler introduced to the agricultural market, a low-priced, well-engineered, all-metal building . . . the Farmsted I. Since that time, more than a dozen other manufacturers have tried to copy the excitingly popular slope wall design.
Now, Butler is proud to announce the Farmsted II, with most of the engineering benefits of Farmsted I, at just a few more dollars . . . plus the benefits of straight wall construction, including large double slide doors in either or both sidewalls.
A full line of optional accessories, including a variety of colors; a broad range of sizes to meet your needs; and all Farmsteds are adaptable to grain storage if desired.
The choice is yours! Slope wall Farmsted I or straight wall Farmsted II — you can't go wrong.

TREE FARM
Westvaco Timberlands
As a member of the American Tree Farm System, we're dedicated to economical and environmentally sound multiple use management of the renewable resources in our care.
Our award winning forest management practices have allowed us to maximize timber production on our woodlands, while maintaining environmental quality, to help meet the publics ever increasing demand for forest products.
Besides wood, our scientifically managed forests also provide food and cover for wildlife, watershed protection, recreation and natural beauty.
Over 77% of Virginia's forestland is owned by private landowners, many of them farmers. However, most of these private lands are growing only half as much wood as they are capable of growing.
Through our Cooperative Forest Management (CFM) Program we extend our forest management skills to private landowners. To help meet the needs of future generations your woodlands must be well managed now.
To realize the potentials of your woodlands for profit and pleasure contact Westvaco CFM, Route 8, Box 135A, Lynchburg, Virginia 24504.

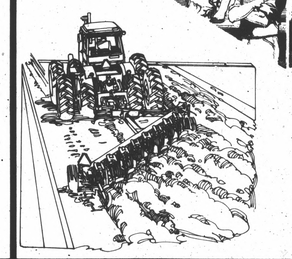
AG DAY • MARCH 19



AGRICULTURE DAY: THURSDAY, MARCH 19, 1981
AGRICULTURE: IT'S YOUR HEARTBEAT AMERICA!
Take a minute on this special day to think about agriculture:
- Our Nation's #1 Industry—assets of $927 billion.
- Our Nation's #1 Employer—over 15 million people.
- Our Nation's #1 Inflation Fighter—productivity growth 5 times greater than non-farm industry over past 5 years.
- Our Nation's #1 Exporter—$40 billion in 1980.

The efficiency of U.S. agriculture helps make it possible for us to spend less of our after-tax income on food and earn food items in less time than consumers in other nations around the world. Just look at how these comparisons stack up:

COUNTRIES	Minutes of Work Time Required for Selected Purchases		
	1 lb. sirloin steak	1 lb. white bread	1 doz. eggs
United States	**16**	**4**	**6**
Brazil	135	43	73
China(PRC)	455	(b)	205
France	34	8	13
India	(a)	46	131
Japan	174	7	12
Soviet Union	60	8	71

(a) — consumption of food item is not applicable; (b) — data is not available.

Agriculture—the heartbeat of our nation's economy. It's a big part of what makes America strong. A story that every American can be proud of. Let's salute it on **Agriculture Day, 1981!**

Now...get what you want in a compact tractor!

International® Series 84 tractors offer you a wide range of power sizes—from 42 to 65 hp*—and come in both utility and row-crop styles. But best of all, they come from the factory with more standard features than you normally expect. And we think this is what makes them your best buy in compact tractors.
- IH-built high-torque diesel engines
- Synchronized (8F/4R) transmissions
- Split-deck controls
- Torsion-bar 3-point hitch
- Big capacity hydraulics
- Hydraulic disk brakes
- Hydrostatic power steering
- Independent PTO
- Differential lock
- 4-position auxiliary valve

There's much, much more. See them now.
